

**Thanks for being patient with us! We are using a
new registration system this year
and are learning as we go!**

Information About Waiting Lists

If the camp session you are interested in does not show up when you register, it means the session is currently full.

To put your name on the waiting list for a session, you should log-in to your account and choose from the drop down list that begins with "I Want To...."

Using the screen that appears, send your request, clearly stating:

The Family Name

The Name of Camper(s)

The Session

The Session Dates

We will keep all waiting lists in the order they are received. Students will be notified by email if an opening occurs.
